

Professional ground trampolines for playgrounds
with unlimited intensity of use.

Let's **play**

Jumping mat made of polyamide, anti-slip elements, which thanks to their ribbed structure provide many years of maintenance-free work. Everything is connected with 6 mm stainless steel, resistant to corrosion rope.

high class
abrasion resistance

anti - slip ribs

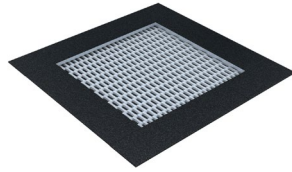

wide range
of colours

resistance
to erosion

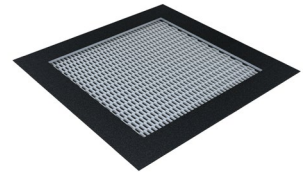

Solid, welded and galvanized trampoline cases, covered with SBR rubber surface with a shock absorption during a fall.
