SPECYFIKACJA MATERIAŁOWA

Let's play

Slides made of stainless steel AISI 304. Metal sheet with a thickness of 2 mm formed in a CNC technique. Side panels made of HDPE polyethylene 15 mm, in the highest quality and totally damp-proof and resistant to UV.

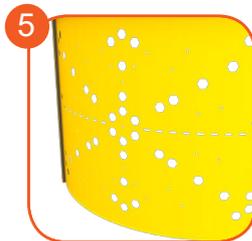

Slides for small children made of polyester resin. Slidepanels made of HDPE polyethylene 15 mm, in the highest quality and totally damp-proof and resistant to UV.

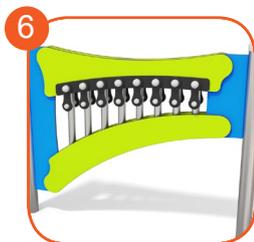

Plates of the walls made of colourful triple layered 15 mm HDPE polyethylene, in the highest quality, totally damp-proof and resistant to UV.

Plates of the walls and platforms made of colourful 13 mm HPL (black plates made of 8 mm HPL), in the highest quality, totally damp-proof and resistant to UV.

Perforated steel sheet galvanised and powder coated with polyester paint QUALICOAT attested.

Xylophone module, made of 13mm HPL plate and anodized aluminium. Allows you to play C- major scale.

Spyglass module made of AISI 304 stainless steel and safe polycarbonate.

Solid construction made of stainless steel AISI 304 totally resistant to weather conditions.

Safe pipe plugs made of injection molded polyamide.

Plate and rope connectors made of injection molded polyamide.

Plate and rope connectors made of injection molded polyamide.

Roofs made of polyethylene rotationally molded.

Tube made of LDPE polyethylene rotationally molded with the inner diameter of 53,3 cm and the length of 125 cm.

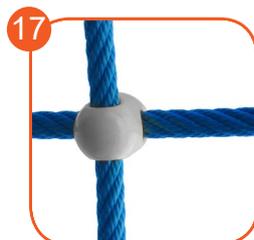

Connecting elements like screws, nuts, washers made of stainless steel. Vandal-proof screw plugs made of injection molded polyamide.

System of connectors and clamps made of strong aluminium alloy. Aluminum is secured by the process of electrophoresis and powder coating with polyester paint UV resistant and QUALICOAT attested.

Polypropylene ropes pp-multisplit type with a steel core and a diameter of 16 mm.

Solid and esthetic rope connectors made of injection molded polyamide.

Rope endings pressed in a sleeve made of durable aluminium alloy.

Telephone module, made of triple layered 15mm HDPE and stainless steel. Two modules allow distance communication.

21 Milled educational board made of 15mm HDPE plate. Stimulates children senses.

22 Milled educational board made of 15mm HDPE plate. Stimulates the sense of sight and teaches fast decision making.

23 Milled educational board made of 15mm HDPE plate. Stimulates the sense of sight and focuses attention.

24 Milled educational board made of HDPE board with a thickness of 15 mm. It focuses attention and enables learning the basics of geography.

25 Milled educational board made of 15mm HDPE plate. It focuses attention.

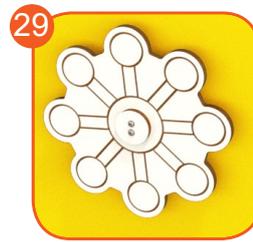

26 Milled educational board made of 15 mm thick HDPE board with a movable rotating element. It stimulates the senses and supports the development of children motor skills.

27 Milled educational board made of 15 mm thick HDPE board with a movable rotating element. Stimulates senses of sight, touch and focuses attention.

28 Rotary module, which allows to move the ball in the maze, made of HDPE plate, safe polycarbonate and stainless steel. Stimulates the sense of sight, the sense of space and teaches control of children energy.

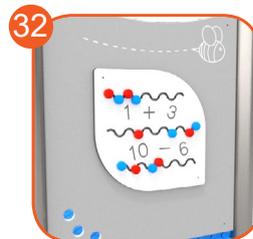

29 Rotary module, made of 13mm HPL plates. Stimulates the senses and supports the development of children motor skills. It stimulates the senses and support the development of children motor skills.

30 Rotary module, made of 13mm HPL plates. Stimulates the senses and supports the development of children motor skills. It stimulates the sense of sight and teaches control of children energy.

31 Module, which allows to move shapes on the milled tracks. Corrects visual- motor coordination. Made of 15mm HDPE plates.

32 Module, which allows to move shapes on the milled tracks. Corrects visual- motor coordination. Made of 15 mm HDPE plates.

33 Hemispheric window with a diameter of 400 mm. Material: heat - formed polycarbonate 5 mm thick.

34 Milled educational board made of 15mm HDPE plate. It stimulates children senses and focuses attention.

35 Passage module made of 15mm HDPE plate.

36 Passage module is made of 13 mm thick wood-like HPL, white and green 15mm HDPE boards and safe 8 mm thick polycarbonate.

37 Counter module made of 15mm HDPE plate.

38 Balcony module made entirely of 15mm HDPE plate.
